

## **Home Improvement Projects**

Many home owners in the fall and winter months take on projects for the interior of their homes. Permits are required for any alteration to previously approved structure(s) or system(s) contained in your home.

If you have any questions as to whether or not you need a permit to complete your project, don't hesitate to call (Ext. 103) or email ([code@thornbury.org](mailto:code@thornbury.org)) either Peg or Tim at the township building.
